## PREFACE

The *Bermuda Digest of Statistics* was first produced in 1973. The publication provides an annual summary of various socio-economic statistics designed for convenient reference. The tables are grouped by theme to form a total of 10 sections. Unless otherwise stated, the statistics are for Bermuda.

The name of the department or organization whose reports or published statements were used is noted under each table. The assistance provided by these departments or organizations is acknowledged gratefully.

The figures in the Digest are mainly annual totals and totals for calendar months. Wherever possible, and space permitting, series have been provided for the period 2007 to 2017. Figures for earlier years may be found in previous editions of the Digest.

<sup>4</sup>The totals include work permits in the year that they are first issued but are not reflected in subsequent years, even though their validity may be spread over multiple years.
