

**Minutes of a Meeting of the Environmental Authority
Held on Friday, 5 May 2023 via electronic Mail**

RESPONDENTS: Ms. Davida Morris, Chair
Mr. Eugene Saunders, Deputy Chair
Mrs. Susan Armstrong, Member
Mr. Willie Ferguson, Member
Mr. James Morrison, Member
Mr. Jonathan Starling, Member

1. Consideration and Approval of Draft Environmental Authority Letter to BELCO.

The draft letter from the Environmental Authority to BELCO that had been discussed at previous meetings was **APPROVED** for release, once signed. This letter related to further requests for information from BELCO with respect to the understanding and mitigation of emissions from the North Power Station and associated facilities.

2. Consideration of Construction Permit (CP-791) and Operating Licence (OL-1210) for the proposed Waste Water Treatment Plant for Ariel Sands Ltd.

The proposed secondary level of treatment for the above WWTP at 21 Ariel Drive, Devonshire, was consistent with the Environmental Authority Operational Policy for Wastewater No.#2 for this size of development. The location of the WWTP was noted to be closer to various on-site guest accommodations than to the nearest off-site neighbours. However, with the potential risk of malodours to the further off-site neighbours it was recommended that the WWTP be 'fitted-for' rather than 'fitted-with' provisions for odour control to be added at a later date if malodours are verified to be a cause of concern to these neighbours.

The Authority **APPROVED** the construction permit and operating licence.

CHAIRMAN
