

Overseas Coverage Brochure

Overseas treatment is a benefit provided by Health Insurance Plan (HIP) and FutureCare under their respective Supplemental Benefit Orders. The Health Insurance Department (HID) overseas benefit uses a preferred network of overseas providers (in-network) to help manage treatment costs. As such, the benefit coverage is different between facilities inside of HID’s preferred provider network versus those providers outside of our preferred provider network. The following grid shows the basic benefit coverage for each plan for facilities in the preferred network and outside.

| Plan | <u>Tier I: Approved Hospitals</u> | <u>Tier II: Hospitals Outside the Approved Network but Approved by Health Insurance Committee (HIC)</u> | <u>Tier III: Hospitals Outside the Approved Network but NOT approved by the HIC:</u> |
|-------------------|---|--|---|
| HIP | 60% of usual and customary charges after discounts negotiated by GMMI | 40% of usual and customary charges after discounts negotiated by GMMI | Not Covered |
| FutureCare | 75% of usual and customary charges after discounts negotiated by GMMI | 55% of usual and customary charges after discounts negotiated by GMMI | Not Covered |

Overseas Care Coordination

HID uses an overseas care management company, Global Medical Management Inc. (GMMI) to assist with coordinating our policyholder’s overseas treatment. GMMI is available 24/7 and can assist with emergency assistance overseas, provide information about HID’s overseas preferred provider network. GMMI negotiate rates for treatment facilities both in HID’s preferred network and in the overall GMMI network.

All overseas care is subject to prior approval

The basic rules that govern HID’s overseas benefit are listed below. These apply to both the HIP and FutureCare plans:

1. The treatment/care must be medically necessary and not available in Bermuda.
 - a. The following two items are exceptions to this rule:
 - i. Radiation treatment is covered overseas according to the policyholder’s plan and facility/network used.
 - ii. FutureCare policyholder vision benefits are available overseas up to the annual maximums.
2. Policyholder must have a referral from a local Specialist or Physician, with appropriate clinical notes.
 - a. The name of receiving facility may be left blank as this allows the policyholder to discuss options with the GMMI coordinator that may best meet their needs.
 - b. Referrals may be emailed Bermudagov@gmmi.com or faxed to 441-278-9874.
3. GMMI must be contacted to organize care for the policyholder and negotiate reduced cost for care before any appointments are arranged. Local GMMI phone number is 441-278-9870.
4. If policyholder is travelling abroad, only emergency care is covered. Emergency is defined as “an injury or illness that is acute and an immediate risk to a person’s life or long-term health”.
