

LOCAL RETAIL SALES

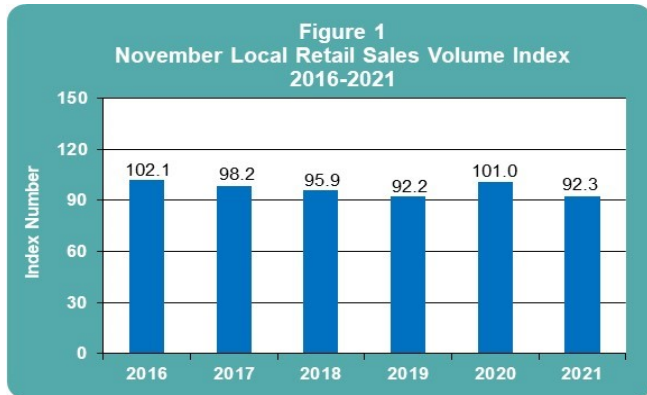

Sales Volume Decreased 8.6 Per Cent

After adjusting for the retail sales rate of inflation, measured at 4.0 per cent in November, the overall volume of retail sales decreased 8.6 per cent when compared to November 2020. This decline was attributed mostly to decreased spending on-island by residents in 2021 compared to the increased spending

in November 2020 after the easing of the Coronavirus Disease 2019 (COVID-19) related restrictions. In value terms, retail sales decreased to an estimated \$96.8 million.

Motor Vehicle Stores was the only sector to record growth during the month.

Excluding Sundays, there were 25 shopping days, one day more than November 2020.

The Retail Sales Index (RSI) is based on a matched sample of reporting local retail stores. The sales data are collected from these stores via a monthly mail survey.

NOTE: Data on selected overseas declarations have been expanded as of December 2018 to show categories that represent a combination of goods purchased directly from overseas, online shopping, gifts, etc. In September 2019, the total selected overseas declarations and annual percentage change were added.

*See page 2 - Analysis of Selected Overseas Declarations

Motor Vehicle Stores

The Motor Vehicle Stores sales volume increased by 15.2 per cent. In value terms, sales rose by 17.7 per cent due mostly to a rise in the number of cars sold which offset a decline in the sale of motorcycles.

Service Stations

Service Stations reported a 4.0 per cent drop in sales volume despite an increase in vehicular traffic compared to the previous year. The value of sales grew by 11.2 per cent due largely to a 15.8 per cent rise in fuel prices.

Apparel Stores

Volume sales for Apparel Stores decreased 5.4 per cent. In value terms, sales fell 4.3 per cent in November 2021. Local sales were impacted negatively as more residents travelled and purchased clothing overseas compared to November 2020.

Food and Liquor Stores

The sales volume for Food Stores decreased 8.7 per cent. In value terms, the sales for Food Stores declined 4.8 per cent. The sales volume and value for Liquor Stores dropped 11.0 per cent.

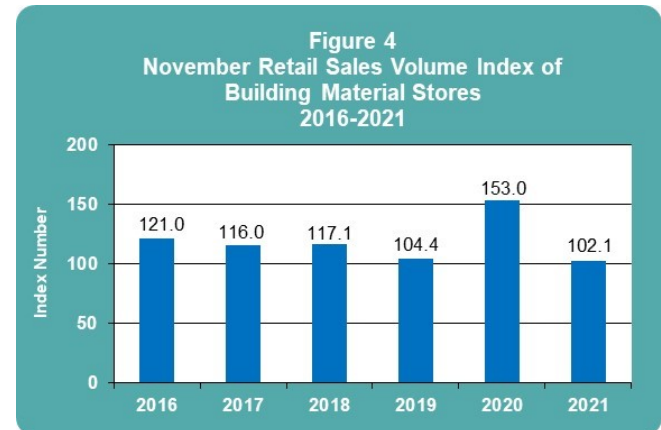

All Other Store Types

During November 2021, the sales volume for the All Other Stores Types contracted 10.3 per cent. In value terms, sales for this sector decreased 5.4 per cent. Gross receipts from the sale of total household goods fell 5.6 per cent due mostly to decreased demand for higher priced items and lower sales of furniture and appliances. Sales for

pharmacies decreased 3.1 per cent. Boat and Marine supplies sales dropped 8.3 per cent.

Building Material Stores

Sales volume and value for Building Material Stores fell 33.3 per cent. This decline reflected lower demand for building products coupled with limited inventory.

Selected Overseas Declarations (Value)*

Imports via courier decreased \$2.4 million to \$15.7 million. Imports by households via sea rose \$2.8 million to \$9.9 million as a result of higher imports of clothing and accessories. Declarations at the airport by returning residents grew by \$2.3 million to \$3.8 million as more residents were travelling. Imports via the Bermuda Post Office remained the same at \$0.4 million.

EXPLANATORY NOTES

The RSI was first developed in 1982. It is a key economic indicator used to assess the current performance of sales activity in the local retail sector of the economy.

The RSI is a self-weighting index. This means that stores reporting a large value of sales have a greater impact on the movement of the index than stores reporting a low level of sales activity.

The RSI serves to:

- 1) measure monthly and annual movements of retail sales
- 2) provide an estimated gross turnover of sales in the local retail sector
- 3) act as a barometer of change in the level of demand for both the domestic and tourist markets

The index is structured into seven broad sectors:

- Food Stores
- Liquor Stores
- Motor Vehicle Dealers
- Service Stations
- Building Materials
- Apparel Stores
- All Other Store Types

Total retail stores across the seven sectors represent roughly 70% of all retail activity on the Island. The base period 2015 recorded a gross turnover in retail sales of \$1.1 billion.

Retail outlets that participate in the retail sales survey and trade in similar types of goods are grouped into these seven sectors. It is important to note that sector classifications are not interchangeable with commodity classifications. This is because most retail outlets sell several kinds of commodities. The sector classification reflects generally the individual commodity or the commodity group, which is the primary source of the establishment's receipts, or some mixture of commodities, which characterizes the establishment's business.

CONCEPTS AND DEFINITIONS

Base Period

This is the time period used as a reference point for measuring the shift in the value of retail sales. The base period for the Bermuda RSI is 2015.

Estimated Gross Turnover

Estimated gross turnover is the total value of retail sales generated in the retail sector. It is calculated by applying the all-items index number for the current month to the average monthly sales figure determined in the base year.

Gross Sales

Gross sales (volume and value) are sales for which no deductions have been made for the return of merchandise, allowances and discounts.

Retail Establishment

Retail trade is the sector of the economy that includes establishments that are engaged in the sale of merchandise for personal or household consumption and in the rendering of services that are incidental to the sale of the merchandise.

Selected Overseas Declarations

Overseas declarations reflect the value of goods declared, whether for personal or business use, by returning residents via the airport, imports via couriers, imports via the Bermuda Post Office and the value of non-commercial imports by households via sea.

Value Sales

The dollar value of a quantity of goods and services sold for cash or credit. Sales include the amounts received from customers for: immediate and layaway purchases; rentals; installations; maintenance; repairs and alterations.

Volume Sales

The dollar value of a quantity of goods and services sold at current retail market prices adjusted to eliminate the effect of price change.
