

## Technical Compliance sheets

Table 1 The cameras required for the CCTV solution should be capable of the following

To be complete by Proponent

No	Feature – Camera requirements	Compliance/Non-Compliance	Remarks where in specification
1	Full High Definition (“FHD”		
2	Provide identification level video @ 15-80 metres, min - max effective distance		
3	IP66 Rating to protect against dust and environmental elements		
4	IK10 rating for vandal resistant housing		
5	Infrared Illumination for night visibility		
6	Defocus Detection		
7	View DR (120dB) for areas that have lighting differences		
8	Capability to produce 30 FPS or more		
9	Image stabilizing to reduce blurring		
10	Day/Night capability		
11	Pan, Tilt, Zoom (PTZ) capability - 30X, (5 plus 8MP)		
12	Varifocal lens capability - (6-22MM, 5-55MM, 20-50MM (5-8MP)		

13	RJ45 Connectivity		
14	Power Over Ethernet (POE)		
15	A minimum of 5-megapixel resolution		
16	5 minimum 41–61-megapixel resolution cameras		
17	3 multi-sensor		
18	Must have tamper detection		
19	Must have motion detection		
20	Capability to record audio (i.e. voice, etc.)		
21	SD Card Slot		
22	Ability to deploy Facial Recognition Technology		
23	Ability to deploy License Plate Recognition Technology/ Automated Number Plate Recognition		
24	LED Video Wall
